

CORRYONG MEDICAL CENTRE

Imagine working in a very modern GP practice, with large consulting rooms, procedural room with state of the art equipment, and then realizing that you are based in Victoria's famous 'High Country' with magnificent views and where every year they hold amongst their other festivals, the famous 'Man from Snowy River' Festival, which attracts large crowds from various parts of Australia.

Corryong has a population of approximately 4500 persons, and good educational facilities, along with excellent recreational facilities with the snowfields at Thredbo approximately one hour away. It is an outdoor lover's paradise with bushwalking, paragliding, camping and skiing all on the doorstep, with a busy tourist industry.

The town also has a small airstrip, and the Royal Flying Doctor Service visits the Practice on a monthly basis, besides having some excellent local schools, including a Catholic primary to year 8, and also a State School from primary level to Year 12. Approximately 1 to 1 ½ hours away is the prestigious Scots School in Albury which also has boarding facilities if required.

You could be the recipient of all of this, PLUS a generous salaried remuneration which includes amongst other things a house, full use of a car, salary packaging.
